LILIES OF QUALITY

LILIUM HARRISII (True Bermuda Easter Lily)

Boddington's Quality Brand Pure Harrisii

Mr. Boddington visited Bermuda at Easter, this spring, for the express purpose of looking into the Lily situation, examining the growing fields of Lilies and securing the finest and cleanest stock on the island. He was successful in doing this, so that we can with confidence offer the bulbs quoted below. The examination of growing crops is in keeping with our policy to secure only the best, even at an advanced price, and successfully to uphold the quality which we aim to sell.

SELECT NAMED DUTCH HYACINTHS

Don't be misled by low offers and cheap prices if you are looking for results

We buy only the very best goods in the following. Intending purchasers can rely upon all bulbs being thoroughly ripened, fully up to specified size and "quality" and true to name. We offer four sizes—Top-root, First, Second and Named Bedding. These are Holland Standard sizes. We do not buy seconds and send out as first size, and named bedding and send out as second size, which device is usually practiced by firms who make ridiculously low prices. You can rely upon our goods.

Decoration Day, or May-Flowering TULIPS

It is surprising that these grand Tulips have not been more largely planted. As an early display, they are magnificent in their beauty and coloring, coming into flower, as they do, from **May 15 to the first week in June**, according to the season, and are most useful from a decorative point of view, after the early-flowering Tulips are past. The colors are various, as described in the following varieties, and their height, after being well established, **reaches nearly three feet in some types**. After planting, they need not be disturbed for years. There are many other beautiful late-flowering Tulips, but the following are a few of the most distinct varieties. Every florist, large or small, should invest in these late Tulips; they are indispensable at Decoration Day time, and as stated before, when planted once are permanent and will pay you handsomely.

Isabella, or Shandon Bells. The petals are a rose color, flushed or flaked with white when they first open, and after two or three days it changes to a suffused deep rose and red color. Remains longer in bloom than many others, and stands well when cut.....	85	7 50

Single Late May-Flowering, or Decoration-Day Tulips

La Merveille. A magnificent variety with very large sweet-scented blossoms. Salmon-rose, overlaid with orange-red. A grand border variety. 25 cts. per doz., \$1.00 per 100, \$8.75 per 1000.

Mrs. Moon. The finest late yellow; beautifully reflexed petals. A charming variety. 50 cts. per doz., \$3.50 per 100.

Maiden's Blush, or Picotee. Clear white, margined on the edge with pink. The flower is beautifully curved, but it is somewhat difficult to give a correct idea of the color. When it opens the petals are white and margined or penciled with pink to cerise. After two or three days the flowers change to a deep rose, and, unless one is acquainted with it, it would not be recognized as the same Tulip. It stands remarkably well when cut. \$1.00 per 100, \$8.75 per 1000.

Parisian White. Rich lemon-yellow, with deeper center. \$1.25 per doz., \$10.00 per 100.

"Quality" Christmas Sweet Peas

At the Exhibition and Convention of the National Sweet Pea Society of America, July 12th and 13th, 1910, we again won the C. C. Morse and Co.'s Silver Cup for the finest and best collections of Sweet Peas open to the trade only.

All true stocks of Winter-flowering Sweet Peas will be scarce this season. Some varieties are a total failure owing to the exceptional season in California this Spring. Our advice to intending planters is to order early.

Our stocks of Christmas-flowering Sweet Peas have stood the test for years, and we can refer you to the largest growers of this increasing popular flower, as to the trueness and quality of our seed, earliness of blooming period and strength and habit of plants.

The following varieties are the "best by test" and include Zvolanek's and our own introductions, grown for seed, from selected stocks by the leading California grower and specialist in Sweet Peas.

Our output last year was nearly 6000 lbs. No kicks and plenty of testimonials as to quality, germination and trueness to type.
